

## Alice FFA Ag Facility Letter of Intent

This is an intent of use for the agricultural barn. The ASTs will need to know which exhibitor and how many projects are potentially being brought onto the premises. This will allow the ASTs to better assign pens. Livestock projects may begin to move in by April 17th, if a barn contract has been signed.

Please note, this is a letter of intent not a contract. Before your animal is allowed on the premises, the barn contract must be signed by the parent and the exhibitor.
